

Initial Project Planning Template

|               |                                                                                         |
|---------------|-----------------------------------------------------------------------------------------|
| Date          | 23 September 2026                                                                       |
| Team ID       | To be filled                                                                            |
| Project Title | Global AI Adoption in Education: A Comprehensive Global Performance Intelligence Report |
| Maximum Marks | 4 Marks                                                                                 |

Product Backlog, Sprint Schedule, and Estimation

Use the template to create a product backlog and sprint schedule for the project.

| Sprint   | Functional Requirement | User Story Number | User Story / Task                                                                          | Story Points | Priority | Team Members | Sprint Start Date | Sprint End Date (Planned) |
|----------|------------------------|-------------------|--------------------------------------------------------------------------------------------|--------------|----------|--------------|-------------------|---------------------------|
| Sprint-1 | Data collection        | USN-1             | As an analyst, I can collect relevant global AI-in-education data from identified sources. | 2            | High     | To fill      | To fill           | To fill                   |
| Sprint-1 | Data collection        | USN-2             | As an analyst, I can document dataset source, format, size and access permissions.         | 1            | High     | To fill      | To fill           | To fill                   |
| Sprint-2 | Data preprocessing     | USN-3             | As an analyst, I can clean missing, duplicate and inconsistent data.                       | 2            | Low      | To fill      | To fill           | To fill                   |
| Sprint-2 | Data preprocessing     | USN-4             | As an analyst, I can transform data into a Tableau-ready structure.                        | 2            | Medium   | To fill      | To fill           | To fill                   |
| Sprint-2 | Visualization          | USN-5             | As an analyst, I can create meaningful Tableau visualizations.                             | 2            | High     | To fill      | To fill           | To fill                   |
