Define Problem Statements (Customer Problem Statement Template)

Create problem statements to understand the customer's point of view. Focus on what matters to users and the challenges they face while understanding AI adoption in education.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Education decision-maker	understand AI adoption across countries	data is spread across different indicators	AI adoption data is difficult to compare consistently	uncertain
PS-2	Education analyst/researcher	identify trends and regional differences	datasets may have missing or inconsistent values	sources use different formats and definitions	frustrated and less confident
